Press Release – FOR IMMEDIATE RELEASE

ABC HONORS TOP CONSTRUCTION PROJECTS IN DELAWARE VALLEY

East Norriton, PA: The Southeast Pennsylvania Chapter of Associated Builders & Contractors (ABC SEPA) announced the award winners of its 17th Annual Merit Construction Awards of Excellence program on November 15 at a banquet held at Presidential Caterers in East Norriton, Pa. This prestigious program recognizes outstanding quality and innovation in Merit Construction by ABC contractors in the Delaware Valley area.

“Over the past seventeen years we have recognized the outstanding projects built by local contractors in our Merit Construction Awards of Excellence Program,” said Geoffrey N. Zeh, ABC SEPA president and CEO. “This year’s winners have demonstrated an unparalleled standard of excellence in value, safety and training. Their commitment to quality is evident in the projects that they design and build. Combined, these projects constitute more than \$2 billion in construction built by Merit Contractors across the Delaware Valley.”

The Southeast Pennsylvania Chapter of ABC received 48 entries for this year’s award program in 19 different categories. The projects entered must have been completed between March 1, 2006 and September 1, 2007 and were judged by a team of 42 industry experts representing a cross-section of professionals, including architects, engineers, commercial real-estate owners, developers and other construction industry leaders. Teams of judges visited each of the projects on September 11, 2007 to evaluate the entries and determine the award winners.
